When necessary, indicate a source by "personal communication" or "unpublished date" in parentheses.

The manuscripts must be submitted by e-mail (giesco2013@fc.up.pt) until March, 25th, 2013.

The manuscripts are reviewed by the referees of the Scientific Committee of the congress, concerning the general content and the presentation according to the instructions. They are returned to the principal author and the corrected paper should be returned within 10 days of receipt. If this period is exceeded, the GiESCO reserves the right to exclude the text from publication.

After the congress, the voluntary authors who wish to publish their articles in a scientific journal having an international scientific reviewing committee, may propose them to the 'Progrès Agricole et Viticole – PAV' whose instructions are similar to the previous ones. Thus the publications changes category, from 'congress article' to 'scientific review article'.
